The background of the slide is a microscopic image. It features a large, dark, spherical structure in the center-right, which appears to be a cell or a virus, covered in numerous small, blue, hair-like projections (cilia or flagella). To the left and in the foreground, there are several elongated, blue, rod-like structures, some of which are slightly out of focus. A single, orange, oval-shaped structure is visible in the lower-left foreground. The overall color palette is dominated by light blue and white, with accents of orange and dark grey.
